

Anti-Semitism and Early Christianity: Issue of Polemic and Faith. Minneapolis, MN: Fortress Press, 1993, 1996

| Evans, Craig A.; Hagner, Donald A. eds.

The editors have divided this anthology into three major sections. The first deals with antecedents of New Testament polemic, including prophetic critique in the Hebrew Bible. The second focuses on antisemitism in New Testament writings, and the final section on antisemitism in post-New Testament writings (e.g., patristic literature, the Apocrypha and Gnostic writings).
