Kantor Center Annual Report on Antisemitism Worldwide 2017

30.04.2018 | JCR

Wednesday, 11 April, 2018 - The General Analysis on Antisemitism Worldwide 2017 produced by the Kantor Center for the Study of Contemporary European Jewry was presented today during a press conference at Tel Aviv University.

According to the report, Europe's largest Jewish communities are experiencing a normalisation and mainstreaming of antisemitism not seen since the Second World War. The report gives an overview about worldwide tendencies and developments in Antisemitism with special focus on different regions and countries.
