

The Origins of Anti-Semitism: Attitudes Towards Judaism in Pagan and Christian Antiquity, New York and Oxford: O.U.P., 1983

| Gager, John

A leading N.T. scholar offers a judicious account of the anti-Jewish attitudes predating the rise of Christianity as well as his own analysis of the first stirrings of antisemitism among Christian gentiles. He also suggests that there was never a consistent pattern of anti-Jewish sentiment among either pagans or Christians. A convenient summary of his views may be found in his contribution to E. J. Fisher (ed.) *Interwoven Destinies*.
