The Protocols of the Elders of Zion. San Diego, CA and Jerusalem. AMI-Jerusalem Center for Biblical Studies and Research, 1994

| Larsson, Goran

Although the "Protocols of the Elders of Zion" was exposed in 1921 by Philip Graves, a London Times correspondent, as a forgery, its falsehoods continue to fuel prejudice. E.g., Hamas, "the Movement of Islamic Resistance," quotes the "Protocols" as evidence of its claim that "the Jews have taken over the world media and financial centres and . . . are subverting human society . . . to bring about its destruction" (p. 45).
