The World Congress of Faiths is a personal membership educational charity established in 1936. We publish "Interreligious Insight" and "One Family" to advise and report events. We also sponsor lectures, conferences, retreats etc and publish books. WCF also provides a chance for members of local interfaith groups to meet people from different parts of the country and the world who share their concern. WCF is a member of the Inter Faith Network (UK) and works with other interfaith organisations in Britain and across the world.
