[5] «The anti Jewish stereotypes mentioned thus far, which I shall call xenophobic stereotypes, all had a kernel of truth all had a kernel of truth (It should be remembered that, so long as it was safe, Jews always acknowledged that Jesus should have been killed as a heretic). But now a new kind of stereotype

appeared, which I shall call chimerical. These chimerical stereotypes had no kernel of truth; they depicted imaginary monsters, for they ascribed to Jews horrendous deeds imagined by Christians that Christians had never observed Jews committing» (*Langmuir G.I.* Toward a Definition of Anti-Semitism. P. 306 ? *passim*). «The theory I have advanced does identify an unusual quality of hostility toward Jews: there has been socially significant chimerical hostility» (*Ibid.* P. 351, ??, ??? P. 334–338, 341 ? *passim*).

[6] «If we continue to use that literally most misleading term, we, as social scientists, should free „anti-Semitism“ from its racist, ethnocentric, or religious implications and use it only for what can be distinguished empirically as an unusual kind of human hostility directed at Jews. In this case we should distinguish between xenophobic „realistic“ hostility (universal) and irrational hostility when Jews are converted in a symbol „the Jews“» (*Ibidem.* P. 351–352). «If by „anti-Semitism“ we mean not only its racist manifestation but all instances in which people, because they are labeled Jews, are feared as symbols of subhumanity and hated for threatening characteristics they do not in fact possess, then anti-Semitism in all but name was widespread in northern Europe by 1350, when many believed that Jews were beings incapable of fully rational thought who conspired to overthrow Christendom, who committed ritual crucifixions, ritual cannibalism, and host profanation, and who caused the Black Death by poisoning wells – even though no one had observed Jews committing any of those crimes. Unknown to the ancient world, anti-Semitism emerged in the Middle Ages, along with so many other features of later Western culture» (*Ibidem.* P. 301–302).

[56] ???: Bowman S.?. The Jews of Byzantium... P. 27–40 («The widespread toleration for Jews in the 14th century by the secular rulers of the Balkans, whether Byzantine, Bulgarian, or Ottoman can be seen through the spread of Jewish settlements and, as well, by the influence of Jews in the economic and religious spheres. The extent of this toleration is further evidenced by the futile attempts of the various Orthodox churches to curb the settlements themselves or the spread of various Judaizing heresies. The Church, to be sure, was more concerned during this period by the potential threat of Roman Catholics, Armenians, and the continuing heresy of the Bobomils, rather than by Jews... That this attitude toward Jews was partly due to the self interest of the rulers is evident from the practices of Andronikos II and the marital relations of John Alexander. It may also, in part, have been due to the well known toleration of Jews in the powerful neighboring Ottoman state») (Ibidem. P. 40).
